

# UPS battery cabinet distance

## Overview

---

NOTE: The modular battery cabinet can only be installed remote to a UPS for external batteries. Contact Schneider Electric for installations with a longer distance. If the distance between the load and the UPS is higher, we must consider the voltage drop based on the distance of the cable and suitable action like oversizing the cable needs to be considered. Most of the UPSs are designed for a maximum. battery life, you'll find a wealth of pertinent resources designed to help you develop the optimum solution. whether you need power protection for small, medium or large data centers; health care facilities; or other environments. Spaces about battery systems shall comply with 110. For battery racks, there shall be a minimum clearance of 25 mm (1 in. Allow clearance in front of and above each cabinet for proper air circulation.
