

# Ultra-large capacity photovoltaic containers for urban lighting in Western Europe

Solar Panel

Hybrid Inverter

Lithium Battery

Battery Cabinet

## Overview

---

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and mobile operation. CATL catapults itself into the record books after unveiling the TENER Stack, the world's first 9-MWh ultra-large capacity energy storage system solution. The company revealed the next-gen product at CES Europe 2025. "CATL has always been at the forefront of the energy transition," said Amanda Xu. With Solarfold, you produce energy where it is needed and where it pays off. Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation. Folding. The integration of wind, solar, and energy storage, commonly known as a Wind-Solar-Energy Storage system, is emerging as the optimal solution to stabilise renewable energy output and enhance grid reliability.
