

# What are the solar power stations in Indonesia

## Overview

---

Listed below are the five largest active solar PV power plants by capacity in Indonesia, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to provide a complete picture of the global solar PV power segment. Buy the. Indonesia, an archipelago forming over 17,000 islands, is rich in natural resources and has as much solar potential as it does challenges. In recent years, the. Solar PV capacity accounted for 16. This is expected to contribute 33. The floating solar facility came online in November 2023 and is located in the Cirata reservoir in West Java. Indonesia Power PLN - Java Bali Generation Unit / PT. The Indonesian government has revealed a new initiative aiming to deploy 100 GW of solar.
