

# What is the maximum volt of solar container outdoor power

## Overview

---

Open Circuit Voltage (Voc): This is the maximum voltage your panel can produce, usually measured on a bright, cold morning. What is the maximum power output of a solar module?

Each solar module has a maximum power output of 100 W. For the grid inverter, Sputnik Solarmax 50 C (L&#228;nggasse, Bienne, Switzerland) has been used that works. Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Fully customizable to your exact needs. in the Commune of Jacmel, in the South-East Department and will be connected to the regional electricity network of Jacmel. Temporary or tactical projects: Military field camps, film crews, agricultural projects and pop-up shops often set up in containers.
