

Where is the best place to clean photovoltaic panels

RS485
Communication between battery and inverters
Baud rate:9600bps

RS485 Interface
Communication between parallel packs or BMS and PC
Baud rate:9600bps

Overview

For your safety, it's best to clean solar panels from the ground. How Often Should You Clean Solar Panels?

What Happens If You Never Clean Solar Panels?

Solar panels use photovoltaic (PV) cells to capture. Solar panel cleaning is the most common maintenance performed on residential photovoltaic (PV) energy systems, especially those in dry or windy areas. We may earn revenue from the products available on this page and participate in affiliate programs. [Learn More >](#) Before cleaning. While going solar is pretty much a "set it and forget it" way to power your home with renewable energy, depending on where you live, you'll still need to clean your solar panels once or twice a year to ensure you get the maximum energy benefit from your solar investment.
