

# Which company is better for energy storage lithium battery in Samoa

LPSB48V400H  
48V or 51.2V

## Overview

---

As Samoa accelerates its transition to renewable energy, lithium battery storage systems are emerging as game-changers. This article explores how cutting-edge energy storage solutions address Samoa's unique energy challenges while aligning with global. System integrator EVLO Energy Storage (EVLO) has completed commissioning of a 4MW/8MWh battery energy storage system (BESS) in American Samoa. The 2-hour duration BESS marks the first of three projects that EVLO will be commissioning in the territory, in collaboration with solar energy service. The first of three storage projects is completed, enabling the island to integrate its solar energy production and enhance grid reliability.
